FROM BORSOTA SHORTHORNS

We at Borsota are holding our first annual sale which we hope to make an annual event. We want this sale to be representative of the kind of Shorthorns we are producing. Becoming interested in Shorthorns a half dozen years ago, the aim from the very beginning has been to build a herd with quality and breeding, yet large enough to make a practical producing unit. To do this it was necessary to buy foundation stock in numbers. Our first sizeable purchase was a group of producing cows from the well known Eldak Cattle Co. This purchase also included a half interest in the \$20,000 "Miracle Bull", Shirgarton Ranger, whose record as a show bull and the record of his get in 1961 major shows including the International, is history.

Since then, additional select small herds have been added in their entirety when offered for sale. Selected individuals from top herds in Scotland, Canada and the United States have also been added.

With the exception of a group of females and a two-thirds interest in and possession of Shirgarton Ranger sold privately to Lewisfield of Charlottesville, Virginia, an eleven head consignment in the history making Eldak sale in 1962, a few small consignments to other sales and the normal private bull sales, practically no other females have been sold from the herd.

Although our land holdings contain approximately 4,000 acres, they are divided into three units, namely, the purebred Shorthorn Ranch, the commercial cow herd ranch of nearly 600 cows and the Quarter Horse Ranch where 72 quarter horses are maintained.

The carrying capacity of our purebred Shorthorn Ranch is approximately 200 head. However, the herd has now reached near the 300 head level and since it is not practical to intermingle the production of the three ranch units, we are now able to offer this select group of young cattle at auction.

This offering is a fair cross section of the herd, with the exception that we are selling some of our very tops that we should not sell. For example, this is the FIRST TIME WE HAVE OFFERED FOR SALE ANY DAUGHTERS, AND THEN SOME OF THE TOPS, OF THE GREAT SHIRGARTON RANGER. In nearly every case we are retaining the dams or some of the get of the cattle selling.

The herd is maintained on a practical cattle operation basis. Primarily, on grass and roughage. The cattle selling are not highly fitted but in good thrifty breeding condition and display their natural thickness, fleshing, size and scale. Health has been carefully maintained.

Therefore, we cordially invite you to attend our sale as we sincerely feel we are selling the kind of Shorthorns that will do well for you as they have for us.

We ask you to study the catalog carefully. Note the ages, rich breeding, background and records. Sale cattle can be inspected several days before the sale at the sale location where a social hour will be held the afternoon before the sale .

We trust you will make plans to be with us both days and you will be most welcome.

A. O. Borstad, Owner

Jerry Beard, Herdsman

FROM THE SALE MANAGER

In my opinion, this first annual sale of Borsota Shorthorns will offer a group of Shorthorns that should attract every segment of the Shorthorn and beef cattle industry.

A very definite sale attraction, of course, are the THREE TOP HERD BULL PROSPECTS and SEVEN BEAUTIFUL SHOW OR HERD FOUNDATION HEIFERS BY THE \$20,000 "MIRACLE BULL", SHIRGARTON RANGER whose record as a show bull and sire is well known by nearly everyone. This is THE VERY FIRST TIME that Borsota has agreed to part with any of his breed improving daughters. However, there are many other top cattle of rich breeding and by renowned sires. A very careful study of the catalog will convince you that these are also sale attractions.

It has been my privilege to be familiar with the Borsota herd from it's beginning. It has also been my privilege to be familiar with all the herds that the foundation stock was obtained from such as the Eldak herd, the Sherritt Estate herd, the Heine herd, and the Pimmett herd, to mention a few of the larger purchases. All have been sound, reliable sources of top Shorthorns for many years.

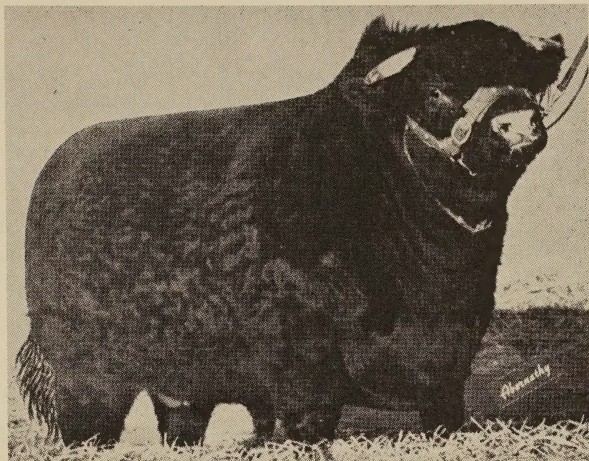

I have visited the Borsota herd in the past and again several times this past summer. I marvel at the sound practical operation. With the Shorthorn herd, the commercial cattle herd, and the Quarter Horse breeding establishment, owner Art Borstad, has certainly set up a well rounded livestock operation. He is a real asset to the Shorthorn industry and a great booster at every Shorthorn event he attends.

This offering is not highly fitted but in ideal condition to do well for their new owners. They will be attractive as they are. The health has been very carefully maintained as further described in this catalog.

Much more could be written about this herd and sale offering. However, study the detailed sale information, the age, pedigree, and footnote of each lot in this catalog and you will want to attend this sale.

This offering must be seen to be appreciated. Therefore, I sincerely urge every good cattleman to attend this sale on October 7. This part of Minnesota on the edge of the Red River Valley will be beautiful in early October, so come the day before the sale, enjoy the social hour, inspect the cattle and meet all your friends who will be there.

SHIRGARTON RANGER

Herd Bull

For Reference Only

Sire—Beaufort Caution. Dam—Shirgarton Rosemary.

Owned jointly by Lewisfield, Charlottesville, Virginia and Borsota Shorthorns, Moorhead, Minnesota.

THE \$20,000 "MIRACLE BULL"

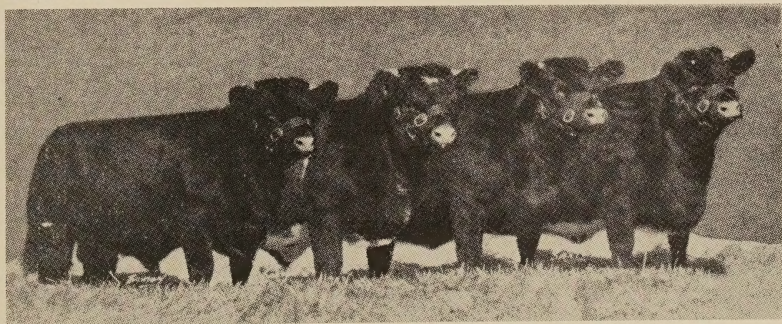

Stood second in class 1956 Perth Show.

Grand Champion 1960 American Royal.

Reserve Senior Champion 1960 International.

His get won seven blue ribbons including the Reserve Champion Female and first prize Get of Sire at the 1961 International for Eldak Cattle Co., Wheatland, North Dakota, Importers, and former owners of this great bull.

Three top bulls and seven great heifers that should be retained in the herd sell in this sale.

The undefeated get of 1961 including the International by Shirgarton Ranger.

At left, Eldak Red Ranger, Int'l first prize junior bull calf was purchased by and sired a great crop of calves for Claymore Farms, Spencer, Ia. He was recently sold to Lewisfield, Charlottesville, Virginia, for \$10,000 with Claymore retaining an interest.

GLASSEL WELLINGTON

Another great imported bull now in service at Borsota Shorthorns.

In 1962, A. O. Borstad, owner of Borsota Shorthorns, commissioned Gilbert Elken, Jr., and Gilbert "Tup" Elken, two master cattlemen, to select and purchase for him in Scotland a top young bull to assist Shirgarton Ranger and especially to use on his daughters. Glassel Wellington is the bull they selected. Since arriving at Borsota he has been used heavily. Some of his first calves that look great will sell at foot, and his service will be one of the sale features. No photograph of him is available. However, he looks every inch a herd bull and sire.

STANDARD GUARANTEE

Endorsed By AMERICAN SHORTHORN BREEDERS ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.

2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder, notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.

3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy, or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.

4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction to all claims. No charge for feed or maintenance shall be made either by buyer or seller & salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.

5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state.

6. Certificates of registry and transfer will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam as well as service dates.

7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale or will have Certificates of Bang's Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
